

Annual Fire Safety Report

September 2023

(For Calendar Year 2022)

California Polytechnic State University, San Luis Obispo

Fire and Life Safety at Cal Poly

Cal Poly maintains a comprehensive fire safety program involving response, testing, drills, procedures, and inspection. The campus contracts with the San Luis Obispo City Fire Department for fire suppression response in the Local Response Area of campus. The California Department of Forestry and Fire Protection (Cal Fire) responds to the State Response Area of campus, including the outlying agricultural facilities and surrounding lands. Both agencies participate in mutual aid agreements to ensure complete and timely responses to any fires on or near the campus property.

Campus fire safety resources and information can be found here:

<http://www.afd.calpoly.edu/ehs/firesafety.asp>

In addition, all Resident Advisors and the live-in professional Coordinator of Student Development positions must attend annual training on evacuation processes and meeting locations, fire safety, fire prevention, fire extinguisher use, and building evacuation essentials. This training consists of approximately one hour of classroom instruction. These positions participate in and lead the annual resident building evacuation drills.

As part of its fire safety and prevention efforts, the University has implemented the following policies in campus housing facilities (disseminated via an online *Policy guide and Title 5* found at <http://www.housing.calpoly.edu/content/university-housing-policies>):

Appliances and Electronic Devices

Appliances such as clocks, lamps, hair-dryers, computers, stereos, televisions, and the like are permitted in student rooms and public areas of the facilities, provided the resident ensures the following:

- Appliances are UL-approved
- The wiring of appliances is safe and plugged into an electrical outlet utilizing a surge protector
- Appliances are turned off when not in use
- Requests from other residents or staff regarding noise from appliances are respected

4.1 Use of items such as air fryers, electric fry pans, coffee pots, toasters, toaster ovens, rice cookers, and blenders cannot be plugged in or used in student rooms. They are only permitted in the kitchen area of the residence halls, apartments, and suites.

See *Appliance and Electronic Device Guidelines for Residence Halls* section for additional information on allowable items in rooms.

Fire Safety

Residents are encouraged to decorate their rooms. However, for the safety of our community, some items are not allowed in student rooms or apartments. A complete list of things to bring and leave behind can be found [here](#). Staff will announce themselves and enter apartments and residence hall rooms to complete mandatory fire and life safety checks periodically during the year. To prevent fire and protect the safety of our community, please be mindful of the following regulations:

11.1 Use or possession of items with a heating element in student rooms or apartments, including, but not limited to, barbecues, electric grills, hot plates (permitted in apartment kitchens), and space heaters, is not permitted.

11.2 Highly flammable materials in student rooms or apartments — including, but not limited to, gasoline, industrial cleaning solvents (e.g., benzene, kerosene, trichloroethylene), spray paint, charcoal, lighter fluid, vehicle parts, fuel, and oil — is not permitted.

11.3 Possession of candles, incense, or other flame-producing materials is prohibited.

11.4 Room occupancy is limited to six persons per residence hall room or twelve persons per apartment (Cerro Vista and Poly Canyon Village). Occupancy may be adjusted based on occupancy needs and public health mandates.

11.5 Blocking of any door or emergency exits, including window access, is a fire hazard and is not permitted.

11.6 Tampering with, discharging, or damaging a fire extinguisher is prohibited when no fire is present.

11.7 Residents may not block access to a fire extinguisher.

11.8 Tampering with or damaging fire life safety equipment — including but not limited to, sprinkler systems, fire alarms, exit signs, etc. — is prohibited. This includes hanging items from life safety equipment such as pipes, sprinkler heads, pull stations, etc.

11.9 Tampering with or jumping in elevators is prohibited.

11.10 Residents are not permitted to possess or use items that create a fire hazard, including permitted items in excessive quantities.

11.11 Residents who may require special assistance in emergency evacuation situations should contact the [Disability Resource Center](#) before move-in or as soon as possible to plan for the event of an emergency. Do not wait for a crisis to occur.

20.1 Per Executive Order 1108, Cal Poly is a smoke and tobacco-free campus. Smoking and tobacco are not allowed on campus in any form, including vaping, chewing, etc.

Emergency Preparedness

You may need to evacuate your residence hall or apartment building in an emergency, so study our evacuation points [here](#). We will conduct fire drills to stay in compliance with fire marshal expectations. We highly recommend you be prepared for any emergency, so please review the tips on our [campus emergency preparedness](#) site.

Our residence halls and apartment buildings are equipped with fire safety equipment, including fire alarms. When a fire alarm sounds, residents will need to evacuate the building. Residents can find information about their evacuation point on the back of their room/apartment door. Residents who may require special assistance in emergency evacuation situations should contact Cal Poly's [Disability Resource Center](#) before move-in or as soon as possible to plan for the event of an emergency.

Fire Drills are conducted yearly in each University Housing Community. Residents are expected to evacuate the building and proceed to their designated evacuation areas for attendance and further staff instruction. Failure to evacuate correctly will result in community standards action.

The Cal Poly Police Department and the Fire Department will automatically be notified when your smoke detector goes off in on-campus housing. If you set off your smoke detector/fire alarm and there is no fire, please contact the Cal Poly Police Department at (805) 756-2281 and let them know. They will still send an officer to verify your safety and turn off the alarm.

On Campus Residence Fire Safety Systems

The following table describes each on-campus residential facility fire safety system.
For planned future improvements to fire safety, specifics are provided as table footnotes.

Building	Sprinkler System?	% Sprinkler	Monitored Fire Alarm	Smoke Detection	Extinguisher Devices	Placards?*	Evacuation Drills (conducted in 2022)

Fire Safety Procedures

All fires in campus facilities must be reported immediately to the Cal Poly Police via 911.

Campus building evacuation procedures can be found here:

https://afd.calpoly.edu/emergency/specific_emergencies/evacuation_sheltering.asp

The current Annual Security Report (Clery Report) can be found here:

<https://afd.calpoly.edu/clery/reports/annual-security-report.pdf>

The Annual Clery Fire Report can be found here:
